COMMON SCHOOLS OF NEW-YORK .- From the Annual Report of the Superintendent of Common Schools we learn that there are 10,875 Districts in the State, and during the year ending October last, 657,782 children had been taught in them, of which 47,428 were in this city. This is an increase of 59,000 over last year. Besides these there are 64,000 in private schools, of which 30,000 are in New-York. Last year in the winter schools there were 5,170 male and 635 female teachers. In the summer schools there were 1,024 male and 5,699 female teachers.

The average compensation of male teachers in the winter was \$14 28 per month exclusive of board; of female \$7 80. In the summer the prices average, for male teachers \$15 per month, for female \$6. Out of 9,368 school houses visited by the Superintendents, 707 were of logs, and 3319 not fit for beasts to house in. The school fund amounted on the 30th Sept. to \$1,975,093 15 .--The public money received and expended in the several districts heard from during the year ending the first of January, was \$660,727 41-\$565,-793 76 of this were applied to the payment of teachers' wages, and \$94,933 65 to the purchase of books for the district libraries. The inhabitants of the several districts have paid on rate bills 8509,376 97, making in all \$1,075,170 73 paid for teachers.

In conclusion the report says:

"In 1838, the sum of fifteen thousand dollars from the avails of the U.S. Deposite Fund was granted to three colleges annually for five years, and until otherwise directed by law.' This sum. divided among the students of these institutions. gives to each, annually, the sum of about forty-seven dollars. A strong contrast is here presented to the forty-two cents bestowed annually from the funds of the State upon the children of the poor .-To add to the wealth of the rich and the poverty of the poor, seems to have formed a prominent feature in the policy of past legislation. Has not the time come to abandon this policy? The five years for which this large sum was granted has fully expired and will not three institutions now willingly relinquish this sum in order that it may be applied to the establishment of normal schools, and thus accelerate the moral and intellectual development of the six hundred thousand children of this State?"

HAYTI.-We are indebted to a friend for a copy of the new Constitution of the Republic of Havti. The first section provides for the political division of the Republic, and declares that Africans and Indians, or the descendants of either, by one or the other parent, may become citizens; but no white

person can become a citizen, or hold real estate. The second section provides for the civil and po litical rights. The third section provides for equality in the eves

of the world. All modes of worship shall be equally free. The freedom of the press is guaranteed .-Schools to be established for both sexes, the teaching free. Trial by jury is granted. The peo-ple have a right to assemble peaceably, and without arms. The powers of the Legislature, Executive, and Judiciary, are defined. The Executive is a President. The Legislature is composed of a Senate and House of Commons. One third of the Senate is renewable every two years. The whole of these, however, much resemble those of the same bodies in the United States. The heads of the four Departments are called Secretaries of State. The qualifications of voters are fixed. The colors of the Republic are blue and red, placed horizontally.

The arms are the Palm, surmounted by the Liberty Cap, and ornamented with a trophy of arms, with the legend, "In union there is strength." Port au Prince is the seat of Government, under

the name of Port Republican. The national fetes are, the Independence of Hayti, 1st of January; that of Agriculture, the 1st of May; that of Alexander Petion, 1st of April; that of Regeneration, the 27th of January. Every stranger in Hayti to enjoy protection to his

person and goods.

New-York Legislature.

Wednesday, Jan. 24. In Senate.—Petitions from 968 persons for a law to punish seduction and adultery. Some unimportant bills were reported and the Senate went into Executive session. In Assembly .- Mr. Allen reported the bill to

amend the Exemption Law (with amendments.) Bills were reported by Mr. WEST for the relief of the Bowery Insurance Company, the Trust Fire Insurance Company, the Firemen's Insurance Company, and the Equitable Fire Insurance Company in the city of New-York.

Mr. L. LEE, (from a majority of the Committee on trade and manufactures,) reported a bill authorizing any citizen of the city and county of New-York to become a weigher. [Mr. Ross indicated his intention to submit a counter report. A message was received from the Governor,

transmitting resolutions of the Legislature of Massachusetts, relative to amendments of the Constitution of the United States-which were ordered to be printed.

The Annual Report of the Commissioners of the Canal Fund, was received; and on motion of Mr. Hulburd, five times rhe usual number were ordered, and 200 for the use of the Commissioners. Adjourned.

A Mr. Hise has been making a speech at Louisville against a variety of matters, and more particularly against an United States Bank. The Journal

says:

He admitted that a United States Bank was chartered during Washington's Administration; "but," said he, "this was not a precedent in favor of the creation of a Bank, but against it; for there was more patriotism and intelligence in the Congressional minority that opposed the Bank than in the majority that established it." Mr. Hise said that immediately after Gen. Jackson's Bank Veto, the neonle elected a Congress unfavorable to the chartering of a Bank, and that there has always been an anti-Bank majority in the National Legislature from that time up to the present. He said this, and perhaps be thought it. May be this man, a Loco-Foco candidate for the office of Elector, actually does not know that the Concress which sat in '841 was in favor of a Bank. May be this Loco-Foco champion really thinks that the Congress which passed two bills for establishing a Bank, was opposed to a Bank.

One of the most facetious passages of the speech

One of the most facetious passages of the speech was as follows:

Mr. Hise arged against a United States Bank that the stock of such an institution belongs to rich men. "If," exclaimed he, "Congress is really the friend of the poor, why does it not, in establishing a Bank, divide the stock among poer men, who have no money to buy it?" This is certainly the richest specimen of Loco-Foco financiering extant.

\$10s of a broken Bank in a Western State, altered to North Kingston Bank, at Wickford, R. I., are in circula-tion, signed J. Reynolds, President, and P. T. Hammond, Cashier, and payable to H. L. Stewart. Centre piece, a ship under sail, with Railro-d and Agricultural views; right hand end piece, mercantile representations; left hand, the figure of Plenty.

At Louisville, 20th, Eastern exchange was abundant at par to a prem., with but a light demand for it. Four months bills on New-Orleans are a per cent. dis. and interest; over four months 1 per cent dis. and interest; short date, interest on, and sight exchange a prem.

The Alton Telegraph says that the Bank of Illinois intends paying a dividend the next time a dividend is to be declared under the act of the Legislature, on certificates and Bank notes alike. The Telegraph thinks this course unjust to the note-holders, and urges them, if they desire to protect their interests, to present their notes at the time of the dividend, and receive the dividend. When the dividend is to be made is not stated. e made, is not stated.

DISASTERS. DISASTERS.

The brig Benjamin, Rogers, which arrived at this port ou Wednesday evening from Calais, Me, has been 30 days on the passage, and has experienced continual gales and head winds; has lost nearly all her sails, rigging, spars and deck load. She was blowed off into the Gulf four times. Being out of provisions and water before the last northwest gale, Capt R consulted the crew, and they came to the conclusion to run the vessel ashore to save their lives, and put on all sail for that purpose; but when in 7 fathoms and very near Long Island, the wind suddenly shifted to the NW and blew a gale, and they were again, for the fifth time, blown into the Gulf Stream.

In town buying small parcels. There is some Cotton going forward, and we understand that two transient ships were taken up yesterday. The regular packet is full or nearly full at 5-16ths, which is a slight improvement.

The Invisible Wig so closely resembles the real head of hair that sceptics and connoisseurs have pronounced it the most perfect and extraordinary invention of the day. The great advantage of this novel and unique Wig is its being made without sewing or weaving, which causes its appearance so closely to resemble the natural hair, both in lightness and natural appearance, as to defy detection, its texture being so beautiful, so porous and so free, that in all cases of perspiration evaporation is unimpeded, and the great evils of other Wigs entirely avoided. The sceptic and connoisseur are alike invited to inspect this novel and beautiful Wig, and the peculiar method of fitting the head, at the manufacturer's, A. C. BARRY, 146 Broadway, corner of Liberty-street, up jail mis stairs
